Mr. Gilbert Yardley
Chairman, Beaver River Dis. Sys.
P. O. Box 288
Beaver, UT 84713

Dear Mr. Yardley:

Re: Beaver River Dis. Sys.

During our telephone conversation today, you described several situations on the river which need attention and also your disappointment with the River Commissioner's efforts to distribute water.

I told you I would write some letters to the Commissioner and the water users concerning these situations. I have since decided it would be better to meet with Lee Strong in person to discuss these problems and review the Beaver River Distribution System. I will be meeting with him and Gerald Stoker in the next few weeks. After that meeting I will decide whether to follow-up with the letters we discussed.

Please feel free to contact me if necessary.

Sincerely,

Lee H. Sim, P. E.
Directing Engineer for
Adjudication/Distribution
